

# **GOLLYNOMICS**

## Investment Opportunity

### **GOLLYNOMICS:**

Sustainable  
Development,  
Creating  
Opportunities

Investment Package:  
2016

## Introduction:

**GOLLYNOMICS** provides the umbrella support to bring together and strengthen the income streams and strategic development of **TETNIGHT EDUCATION**, which helps children and young adults to gain education and employment in Ghana, and through **LAMKOTET**, we are able to offer a comprehensive Agricultural/ farming programme, incorporating the training of young farmers. The platform and network has already been established and will be led by an experienced agricultural team.

## A simple investment:

The aim of **GOLLYNOMICS**, through its Agricultural arm, **LAMKOTET** is to:

- Encourage "Youth in Agriculture"
- Train a new generation of farmers
- Generate efficient agricultural production
- Work with communities to develop and provide local employment.
- Provide Support Services – Veterinary, Accounts, Management & Training
- Expand by Replication, and support older farmers.

**Phase 1** will initially be located in the eastern region, approx. 35 - 40Km from Accra.

## Benefits:

Two questions that you will doubtless want answered prior to committing to any medium to long term investment, are what are the benefits and what is the cost. The benefits are two-fold:

- Supporting Young Talents** and create jobs.
- Returns:** The long term results for investing in agricultural land and production are encouraging. The expense ratio is:
  - 6% RETURNS OVER 3 YEARS**
  - 8% RETURNS OVER 5 YEARS**
  - 3% ANNUAL DIVIDENDS ON YIELDS**

(\* Yields may go up or down in production)

## Cost:

An investment of just £5,000 will secure approx. **8** acres. The target for **Phase 1** is to secure 40 acres and have the production equipment in place to start reaping the benefits. The total production start-up investment is around £130,000. Production will commence as soon as some of the money is made available.

Investment packages start from £500.
